

Decree of the Ordo Reductor

Classification: Arch-Divinitas Primus

Clearance: Omnissiah's Eyes Only

By the order of the **Fabricator-General of Mars**, under the divine authority of the Machine God, let it be known that **Magos C-402 Epsilon Varun** is sanctioned by the holy rites of the **Omnissiah** to serve as an operative of the *Ordo Reductor*. His duty is destruction sanctified by the blessed circuits of Mars, employed in the name of the **Omnissiah** to dismantle and obliterate the enemies of mankind. He is authorized to wield the knowledge of xenos technology for the explicit purpose of strengthening the Imperium's martial supremacy.

Under sacred protocols, the work of **Magos C-402 Epsilon Varun** is considered classified and beyond reproach by lesser ranks. The application of alien technologies in his hands serves only the **Omnissiah's** will, for innovation through obliteration is the creed of the **Reductor**. Any scrutiny of his methods is an affront to the **Machine God** and carries the weight of tech-heresy. His work may extend beyond the visible field of operation, veiled within sacred binaric canticles, known only to those of sufficient clearance within the *Ordo*.
